

# Shopify: AccelPay Payments

## Overview

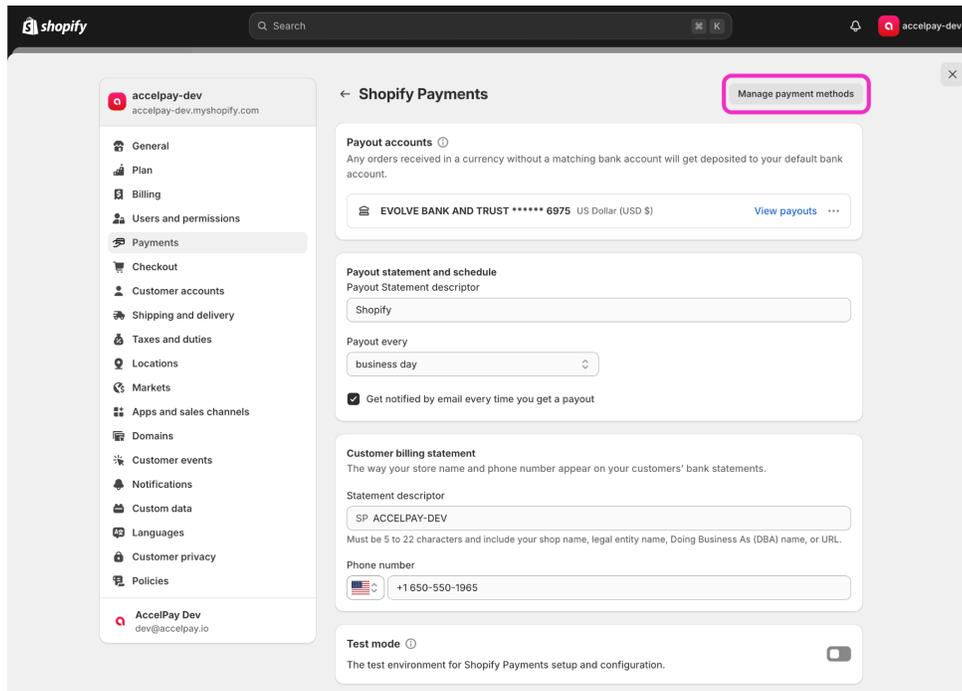

The [AccelPay Payments App](#) is the first 100% compliant alcohol payment app for the Shopify ecosystem. It acts entirely in the background so that the user experience is never interrupted; the customer completes the check-out experience in Shopify as they would have previously.

## Installation

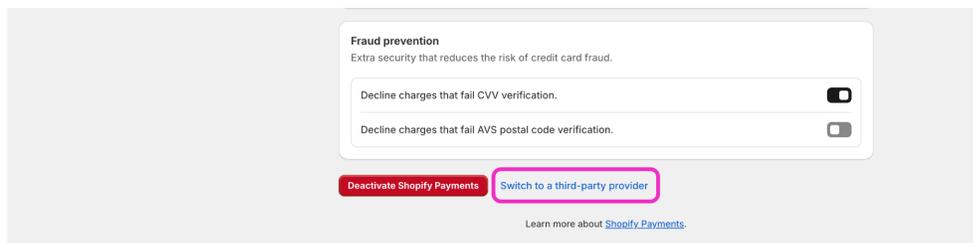

1. Log in to Shopify as a **Store owner**.
2. Click the [installation link](#) to install the App.  
If that does not work, visit the [App Listing Page](#) and click “Install”
3. In Shopify, Navigate to **Settings** in the bottom left and then **Payment** in the settings view.

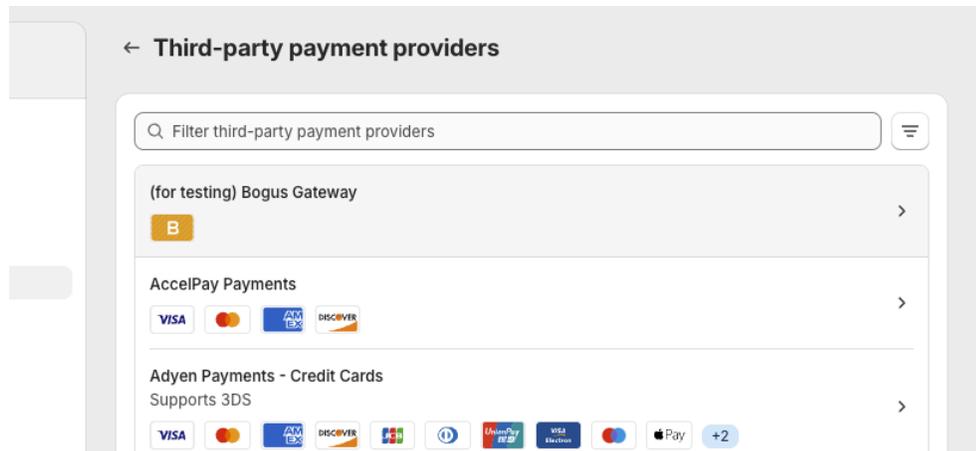

4. Click **Manage** in the top right of the existing payment provider's bubble:
5. On the Payments App management page click **Manage payment methods**

6. Scroll to the bottom of the page and click **Switch to a third-party provider**:

7. From the drop down list select **AccelPay Payments**

8. Then click **Activate** to turn on AccelPay payments.
9. Notify AccelPay that you've completed all of the above steps.
